POWER AUDIO

A big party for friends, karaoke, or maybe a sound system for a classroom or a dance hall? All this is possible with PRIME3 power audio systems. High-quality sound, awesome musical experience, as well as excellent materials and workmanship, guarantee the success of any meeting, which will long remain in the memory of the invited guests. The devices have a built-in Bluetooth module, so you can easily play music from mobile devices such as smartphones and tablets, and listen to your favourite songs stored in your own music library, streaming services, and from online radio stations. They are also equipped with a USB port and an SD-card slot, allowing you to connect any media on which MP3 and WMA music files are stored to the device. The AUX port allows you to connect any external player to the speaker. Some models are also equipped with an FM radio, so you can enjoy great music, even when there is no other sound source nearby.

BLUETOOTH SPEAKERS

Everyone likes to party outdoors. Playing on the beach, in the city park, during a picnic, or in the garden with music in the background, always sounds like a nice time with family and friends. These pleasant moments will be perfectly enhanced by the pure sounds of your favourite songs coming from the portable speakers available in the PRIME3-brand portfolio. These devices are equipped with a Bluetooth module, which enables the transfer of music files via its A2DP profile from many different mobile devices, such as smartphones, tablets, and laptops. This connection allows you to play your favourite songs from your own music library, streaming services or online radio stations. Many models also have a built-in radio tuner with the facility to store your favourite FM stations, as well as a port to read sound files stored on SD cards, and an AUX input, allowing you to connect any external players to the speaker.

FAN HEATER

PRIME3 fan heaters are devices which will effectively help you to heat your home on cold days. They are needed not only when severe winter reigns supreme outside. They will also work well before the heating season, when the main heating source doesn't yet work, the outside temperature is starting to drop progressively, and the cold begins spreading all through the house. It is also a perfect solution for cold mornings and cool evenings during a spring or summer stay in a summer cottage.

GARMENT STEAMER

PRIME3-brand steamers, made of the highest-quality materials and equipped with modern technologies, guarantee efficient and fast ironing of fabrics, which will surely be appreciated by even the most-demanding users. The steam produced in the device softens and penetrates the fibres of the fabrics, ensuring their silky smoothness, and also removes microorganisms and washing-agent residues, which is important for allergy sufferers. The device can also be used for ironing curtains and bedding, as well as for disinfecting furniture upholstery and plush toys.
